DESCRIPTION

More Than Surviving: From Traumatic Stress to Wellness is a training focusing on an officer's overall wellness, notably after dealing with incident responses, organizational stress, and community confrontations. The long-term goals of this course:

- To help officers take a proactive approach to recognizing and reducing stigma around dealing with stress
- To increase officer safety and wellness, while reducing officer and agency exposure to liability
- To promote trauma-informed wellness programs within the agencies

The curriculum is supplemented, through Legacy Productions' **"Keeping The Peace"** film, with direct messages from key law enforcement commanding officers and chiefs throughout the state, as well as real-life video clips of peer officers providing insightful experiences and impressions. It is conducted by a multidisciplinary team of law enforcement and mental health professionals.
